IMPROVING RAVINE

The unsightly ravine east of the driveway near the Main street arch entrance to Glen Miller park, is being improved with a boulder cement basin.

Three teams are hauling boulders and twelve men are grading, laying cement and boulders.

Daniel Burkhardt has charge of the work which was let him at a per day contract.

CHIGRES DID IT

Chigres put William Dickinson in the city jail. He was fined \$1 and costs in police court this morning for drunkenness. He explained that poison ivy and chigres hurt him so badly that he took whiskey to relieve the pain. He was found in an intoxicated condition in Glen Miller park last evening by Park Superintendent Holman.

It is needless to suffer any longer with rheumatism, and be all crippled up, and bent out of shape with its heart-wrenching pains, when you can be quickly and permanently cured.

Rheumatism comes from weak, inactive kidneys, that fail to filter from the blood, the poisonous waste matter and uric acid; and it is useless to rub on liniments or take ordinary remedies to relieve the pain. This only prolongs the misery and can't possibly cure you.

The only way to cure rheumatism is to remove the cause. The new discovery, Croxone, positively does this. It neutralizes and dissolves all the poisonous substances and uric acid that lodge in the joints and muscles, to scratch and irritate and cause rheumatism, and cleans out and strengthens the stopped-up, inactive kidneys, so they filter all the poison from the blood, and drive it on and out of the system.

Croxone is the most wonderful medicine ever made for curing chronic rheumatism, kidney troubles, and bladder disorders. You will find it different from all other remedies. There is nothing else on earth like it. It matters not how old you are, or how long you have suffered, it is practically impossible to take it into the human system without results. You will find relief from the first few doses, and you will be surprised how quickly all your misery and suffering will end.

An original package of Croxone costs but a trifle at any first-class drug store. All druggists are authorized to sell it on a positive money-back guarantee. Three doses a day for a few days is usually all that is ever needed to cure the worst backache or overcome urinary disorders.

Chronic, Crippled-up Sufferers Find Relief After Few Doses of New Remedy Are Taken.

Question

O. E. Dickinson, Richmond.

Sir:—Kindly advise me as to whose initial, the groom's or the bride's, should be engraved on a gift of silver tableware.

Answer

Richmond, Ind., Sept. 10, 1912.

Dear Madam:—Your inquiry regarding the correct engraving for wedding silver has just been received. There is no set rule and authorities differ as to which is correct.

It is argued by some that wedding presents are gifts to the bride and not to the groom, but it is the opinion of the majority that the groom's initial should mark the gift, for why should the silver that she will use in common with her husband all her life bear the initial of a name that is no longer hers? In fact, probably many of her guests would not be familiar with her former name. This latter custom prevails in the fashion centers of America and Europe, and has generally been recognized by us as the correct form, except, of course, where the gift partakes of a strictly personal nature, such as Toilet Articles, Jewel Cases, Photo Frames, etc., when the bride's initial is permissible.

Thanking you for this opportunity of serving you, we remain, Very respectfully yours,

O. E. DICKINSON.
